

# 6 BRIDGES CRUISE

## River Douro Cruise

This boat tour gives you the opportunity to see everything in a different way. From the river you can see the various monuments and the bridges. Enjoy yourself aboard of a “Barco Rabelo” – a boat that was used to transport Port Wine for over 300 years old and today is powered by an engine and equipped with all the necessary security devices. We would you like to offer you a different view of the city.
